Anderson

Masters Corner

Brethren,

75% of the year has come and gone. This has been a very busy quarter, with much degree work and Grand Lodge. Grand Lodge was very good this year and in some ways sad as this was my last year in a official capacity (I still plan to attend in years to come as being with all the Brethren is quite educating. I was very fortunate to be able to join Eastern Star this quarter going through with my daughter which was quite a joy. I highly recommend to all line officers at some point while they are in the line to join this wonderful organization. I personally want to invite all of the Brethren of Lafayette Lodge to join us on Friday November 13th to help with this years fund raiser, lets make it a great success.

Fraternally

W Bro. Mike Wagoner

Secretary's Desk

Brethren,

It is almost time for our 2016 dues. If you have not paid 2015 please do so. Make sure and turn in your ticket stubs with your money for the fund raiser.

Fraternally

Bro. Robert Savacool

Masonic Words

Relief:

To relieve the distress is a duty incumbent on all men, but particularly on Masons, who are linked together by an indissoluble chain of sincere affection, To soothe the unhappy, to sympathize with their misfortunes, to compassionate their miseries, and to restore peace to their troubled minds, is the great aim we have in view. On this basis we form our friendships and establish our connections.

Right

This, one of the noblest words in the English language, is also one of the oldest, being found in the very ancient Sanskrit in the form *raj* meaning rule. It appeared in Latin as *rectus*, meaning direct, straight, a rule, -rule being used in the sense of our ruler, a device for drawing a line which is the shortest distance between two points. Such words as regent, rail, direct, rector, rectify, rule, came from this Latin term. Right means "straight" as in a right line," a "right angle," etc; through a familiar metaphorical application it has come to stand for conduct in conformity with moral law. Our "rights" are those privileges which strict law allows to us. A "horizontal" is a right line on the level: a "perpendicular" is a right line up and down, or at right angles to the horizontal. "Right" and "regular" discussed just above, originally were close together in meaning.
